

Getting Started with the Online Library, December 17, 2018.

1

00:00:01.290 --> 00:00:02.340

Thank you, Preeti.

2

00:00:03.480 --> 00:00:11.519

As Preeti said, my name is Marsha Stacey. I'm one of the any librarians and thank you, Preeti and Marilyn, for covering the chat.

3

00:00:12.990 --> 00:00:16.109

If you have any questions as we go along, folks,

4

00:00:17.279 --> 00:00:30.450

type your questions in the chat. They will try to respond. And then I will stop and ask if there's questions and we can field those questions. A couple times during the webinar, too.

5

00:00:32.370 --> 00:00:39.54

This is the Getting Started on the Online Library Webinar and some of your instructors have

6

00:00:41.280 --> 00:00:58.950

offered you extra credit for attending this webinar. If you registered, you will receive an email following this presentation, this webinar, with a link to an attendance quiz. Don't worry about that. It's not very hard. Just listen up.

7

00:00:59.970 --> 00:01:08.130

And take the quiz and you'll receive your results by email. And then you can forward that email to your instructor.

8

00:01:09.900 --> 00:01:14.100

So, and if there's any questions as you're going along

9

00:01:15.420 --> 00:01:19.470

About that, we'll try to cover those questions, too, either

10

00:01:20.910 --> 00:01:23.280

at the end of the webinar.

11

00:01:24.960 --> 00:01:34.890

I'm here today to give you a tour of the NAI Online Library and the Writing Center and also get you started on your research.

12

00:01:36.120 --> 00:01:49.950

So first question, how do I get to the library? Well, this is my D2L homepage. On your homepage, you should see a link to the Online Library up in the left hand corner.

13

00:01:51.090 --> 00:02:05.730

And you can click on that link, it'll take you directly to the Online Library. There's also a link to Smart Thinking tutoring and this is your free online tutoring service that you get as a student at NAU

14

00:02:07.980 --> 00:02:11.460

You can get help in many of your classes.

15

00:02:12.510 --> 00:02:25.350

And also you could submit a paper for review. You have to pick a couple areas that you want the tutors to look at on your paper. But I've gotten very good results from students who sent their papers to Smart Thinking.

16

00:02:27.360 --> 00:02:33.090

So, try that out sometime. There's a link here and there's one also in the student portal.

17

00:02:35.130 --> 00:02:37.590

You can also go to one of your courses.

18

00:02:41.190 --> 00:02:43.560

And go to course materials.

19

00:02:44.880 --> 00:02:48.810

And there will be a link to the online library in those course materials.

20

00:02:54.600 --> 00:03:01.230

And this is our present online library. And you can also get here

21

00:03:02.190 --> 00:03:20.820

By just typing in the browser address box library.national.edu and there's also a link through the student portal to the library. And this is our present library, we're going to be doing a little revising or remodeling of our library.

22

00:03:22.050 --> 00:03:34.590

But you will see similar drop-down menus on our new homepage, where you can get the same resources that I'm going to show you today. So

23

00:03:36.660 --> 00:03:45.060

no worries on that. We'll come back to these subject tabs a little bit later, but let's scroll down to the

24

00:03:46.110 --> 00:03:59.520

Bottom of the page. You're going to see five squares. There's the Writing Center, a link to the Writing Center here, a link to Learning Express, which is one of our databases and I'll get back to that in a minute.

25

00:04:00.570 --> 00:04:18.780

There's an interlibrary loan form that you can fill out, if you can't find a full text article that you want in our databases. And then there's a link to career support, and a very important page: a link to a page where you can find your librarian.

26

00:04:22.500 --> 00:04:33.000

And this lists are our librarians by subject. Oh, and so if you need some help in a particular area. You can contact that subject librarian.

27

00:04:38.970 --> 00:04:42.900

Let's go back to our homepage of our library.

28

00:04:44.820 --> 00:04:53.970

And let's scroll up here. Let's go back down here and just take a look at Learning Express for a few minutes. We click on Learning Express.

29

00:04:56.820 --> 00:05:13.800

You may have some assignments using this database. So I want to kind of introduce you to it. You will have to sign into the library like you always do with your first name dot last name@national.edu

30

00:05:14.550 --> 00:05:29.550

But, in addition to that, it's going to ask you to register. See, it already knows me. If you're a new user, they're going to ask you to register. This is kind of a special database. And if you click on Register, it's a really simple process.

31

00:05:30.750 --> 00:05:46.320

You put in your first name, last name, choose one of your other emails, not your NAU email. Choose a Hotmail, or Gmail account, and then a pretty simple password that you can write it down somewhere. So you can remember it.

32

00:05:50.850 --> 00:05:55.020

Let's see, so once you've registered

33

00:05:56.040 --> 00:06:21.630

And you've logged in, you're able to log in. Okay, there we go. It'll take you back to your homepage and it'll show you some centers and the Job and Career Accelerator. It is one that some courses use and you'll explore some occupations using this center in Learning Express.

34

00:06:23.040 --> 00:06:39.360

The other one that I want to show you. You might have to use PowerPoint or Excel spreadsheets. And if you've never used this - this is a good place for you to come and get some tutorials on how to use those popular software tools.

35

00:06:41.010 --> 00:06:45.780

So here's some tutorials that you can get to, on Excel,

36

00:06:46.950 --> 00:06:51.780

PowerPoint, even Word if you need a little refresher course on that.

37

00:06:56.700 --> 00:07:03.660

Any questions on Learning Express? Type them in the chat and we'll see if we can answer them.

38

00:07:12.180 --> 00:07:15.930

Okay, I'm going to go back to the main page of the library.

39

00:07:24.330 --> 00:07:27.090

Okay, let's scroll back up to the top here.

40

00:07:30.360 --> 00:07:41.190

So let's say you need to find some information for a discussion or an assignment or maybe you need to write a whole paper and need peer-reviewed articles.

41

00:07:42.780 --> 00:07:48.240

The place to start is the subject guides. If you click on the subject guides,

42

00:07:49.980 --> 00:07:55.680

If you've looked at them before, we made a few changes here. We've got quite a few more guides than we used to.

43

00:07:57.420 --> 00:08:03.360

And I'm going to show you one of those guides, just to get you started. Show you the criminal justice guide.

44

00:08:07.320 --> 00:08:09.930

And most of those guides are

45

00:08:13.050 --> 00:08:33.180

Organized. All of them are organized with a left directory and they have many of these same categories - find journal articles, find eBooks, maybe some websites, and recommended webinars and videos. So

46

00:08:34.200 --> 00:08:39.360

when you get to your subject, you might want to come back here and look at your subject area LibGuide.

47

00:08:41.430 --> 00:08:51.210

The other neat thing that we have. And I'm going to go back to that list of LibGuides. And the other neat thing that you're going to find on this page is what we call the LibAnswers.

48

00:08:52.230 --> 00:09:01.710

If you're working on an assignment at midnight, and you need an answer about how to do something in the library, click on LibAnswers.

49

00:09:05.010 --> 00:09:17.850

And we have some of the most popular questions that we received over here in the left hand side. But you can also just type your question in: like I can't log into the library.

50

00:09:18.720 --> 00:09:38.400

And it'll come up with this, this question and answer for you that will help you. If we haven't answered the question, if it doesn't appear in our FAQs, then submit a question here. It's a form you can fill out, submit the question, and we'll get back to you just as soon as we can.

51

00:09:40.950 --> 00:09:45.390

Okay, let's go back to our pages. Subject Guides.

52

00:09:48.960 --> 00:09:52.140

Scroll down to webinars.

53

00:09:55.140 --> 00:10:04.770

Oops. Library webinars, and I have prepared a LibGuide for this webinar. So if you have questions, you can come back and use this

54

00:10:05.190 --> 00:10:19.290

Getting Started with the NAU Online Library LibGuide anytime. There's something that, oh gosh, I remember what she said - something about peer-reviewed articles, click on the link to the LibGuide.

55

00:10:26.370 --> 00:10:40.740

You can refer back to this at any time. So you can use Google for quick answers. I mean, like, who's the cast of Criminal Minds, in the cast of Criminal Minds, but Google, you have to sift through all of those

56

00:10:42.090 --> 00:10:44.850

ads that are disguised as articles.

57

00:10:45.930 --> 00:10:52.770

And are any of those things you find online. Are they credible or reliable?

58

00:10:54.120 --> 00:10:56.700

Do you really want to use them in your homework?

59

00:10:59.880 --> 00:11:00.810

that you're going to submit?

60

00:11:05.100 --> 00:11:21.060

You can be sure the information that you get from the Online Library is credible, is reliable, and you can use it in your assignments, your discussions. We recommend it. In fact, for example, some of you may be choosing a topic for your paper.

61

00:11:22.200 --> 00:11:30.330

So we have a couple of databases here for that. And I'm going to click on the first one, the SIRS Issue Researcher.

62

00:11:37.230 --> 00:11:56.010

And this database lays, has topic pages that lay out the viewpoints, the arguments on both, or maybe there's even more sides to an issue. Current events usually, current topics, that you're going to hear about in the news.

63

00:11:57.330 --> 00:12:10.350

And there's some real popular ones up here at the top in the pictures. The middle column, if you scroll down the topics that they have, are laid out in alphabetical order.

64

00:12:11.220 --> 00:12:25.440

So if you have a topic you like, you can see if you can find it in the list. There's also some broad subject categories over here in the left. You can choose one of those you're interested in and see what the topics are under that.

65

00:12:26.760 --> 00:12:37.560

Also, if you are thinking about a topic or you've got a keyword, you can type it into the box up here, and it'll search for you.

66

00:12:38.940 --> 00:12:44.220

And this is a good place to explain that our databases don't like complete sentences.

67

00:12:45.300 --> 00:12:59.670

So try to think of the most important words that you want to find in an article here on SIR Researcher and just type the keyword or keywords in, not a whole sentence.

68

00:13:02.010 --> 00:13:23.190

So I'm interested in driverless cars and I see that there's a topic here - "driverless vehicles." I can click on the picture or I can scroll down here and find it in the list. It'll be the same. I'll show you how you can do this - driverless vehicles. I'm going to click on that.

69

00:13:26.760 --> 00:13:34.050

And this is a main category. So they have a summary of this topic with the question.

70

00:13:36.000 --> 00:13:39.390

Do the benefits of driverless vehicles outweigh the risks?

71

00:13:40.260 --> 00:13:50.190

And they give you an introduction. Driverless vehicles, also called autonomous vehicles and self-driving vehicles, are vehicles that can operate without human intervention.

72

00:13:51.060 --> 00:14:02.880

Wow. I see some synonyms there. So words that mean the same thing as driverless cars. So I want to keep track of those because those are important. You might want to vary your searches as you go along.

73

00:14:04.140 --> 00:14:14.370

Supporters argue: they tell you the positions. Here are the here the arguments in favor of driverless vehicles.

74

00:14:14.880 --> 00:14:28.290

Critics argue these are the negative arguments - arguments against using driverless vehicles. So they kind of give me some really good ideas that I can use. This is background information.

75

00:14:30.090 --> 00:14:46.650

And then they'll make an affirmative statement of each position. Driverless vehicles have many benefits and they talk about - they give the examples. Driverless vehicles pose too many risks - they give you the counter arguments.

76

00:14:47.760 --> 00:14:59.640

And I've read - I went back and read all six of these articles. Now these aren't peer-reviewed articles - they're news articles, but they're highly credible and they're going to give you ideas

77

00:15:00.300 --> 00:15:13.050

On what you should look for in peer-reviewed articles, if that's the requirement for your paper or your class. And the first one I read is here - The Driverless Future is Still Far Off.

78

00:15:16.080 --> 00:15:27.720

It's a very credible argument from The Baltimore Sun newspaper. Fairly recent and what's really interesting here - it gave me the information here - is it defined self-driving.

79

00:15:28.200 --> 00:15:42.150

and driverless and driver assistance. And that's something that's really important in your own writing. You want to make sure that you explain what you're talking about to your audience. They may not know what these different terms mean.

80

00:15:43.080 --> 00:15:50.700

So that's a good thing to look for when you're looking for sources, too. Do they have some definitions that I can use?

81

00:15:53.100 --> 00:16:00.690

The other article I read is: "Driverless Cars Make Me Nervous. Then I Tried One." I clicked on this.

82

00:16:03.210 --> 00:16:08.580

And I read through this. It is about somebody's personal account of using a semi-driverless car.

83

00:16:11.070 --> 00:16:28.800

And if I scroll down, here is a paragraph that really, really resonated with me. Technology Creates an Opportunity to Save Lives. Computers don't get drowsy, drunk, or distracted by text messages, and they don't have blind spots.

84

00:16:29.970 --> 00:16:46.890

And it goes on to talk about how once airlines were automated, this reduced the crashes. Those are really good ideas that I want to keep in my mind as I search along. And I'm also going to look for negative type arguments, because

85

00:16:47.910 --> 00:17:03.510

A good writer always looks for the counter arguments and tries to minimize those. Especially if I'm going to be a proponent of driverless cars, I want to minimize or try to find evidence that minimizes the risks of using those vehicles.

86

00:17:06.210 --> 00:17:16.710

Okay, this article talks about the driving ban on cars in India where there's a fear that

87

00:17:18.510 --> 00:17:30.750

people will be out of jobs. Also the hackers that could interfere with the operation of these vehicles. So, these, this has given me a lot of ideas that

88

00:17:32.130 --> 00:17:33.240

that I want to look for.

89

00:17:34.500 --> 00:17:37.650

Okay, I'm going to go back to my LibGuide.

90

00:17:39.780 --> 00:17:52.170

Here we go. There are two other databases that have really good ideas for topics: NBC Learn, which has a lot of videos. Also, Points of View Reference Center.

91

00:17:55.560 --> 00:18:06.660

But I still need some background information. I don't know that much about these driverless vehicles. So I'm going to go to our Credo General Reference, it's a great place to find -

92

00:18:08.310 --> 00:18:15.600

What it actually pulls from lots of specialty encyclopedias, so you could call it a Mega Encyclopedia

93

00:18:20.370 --> 00:18:27.930

If Credo doesn't come up the first time you click on it - sometimes it'll give you a little error message. Just go back

94

00:18:28.230 --> 00:18:42.630

To the link. That's the LibGuide or if you're on the database proper and just click it again. It'll come through. It came through for me. So it's a little wonky sometimes. I'm going to type driverless

95

00:18:43.770 --> 00:18:44.640

Cars.

96

00:18:46.170 --> 00:18:47.130

In my search bar.

97

00:18:48.330 --> 00:18:50.220

I'm going to do a basic search.

98

00:18:55.980 --> 00:19:01.470

I come up with kind of an interesting article here. The first one. Will You Climb In ...

99

00:19:03.240 --> 00:19:04.230

Click on that link.

100

00:19:05.850 --> 00:19:11.970

There's actually a diagram of how a Chevy Bolt works.

101

00:19:13.980 --> 00:19:18.390

That's very interesting. It'll explain more - it gives me more background.

102

00:19:19.650 --> 00:19:22.410

There's also some more information about

103

00:19:23.790 --> 00:19:26.430

How driverless cars came about.

104

00:19:27.630 --> 00:19:33.510

And then there's a little paragraph on the argument. What's the argument for driverless cars?

105

00:19:34.350 --> 00:19:47.850

And here's one that's really interesting to me. They also note that autonomous cars would be a boon to the disabled, the elderly, not to mention the cyclists and pedestrians who make up a large share of global victims. Ah.

106

00:19:48.420 --> 00:19:55.800

There's a great argument, okay I'm in favor of but I'm going to keep that one in mind, too.

107

00:19:57.690 --> 00:20:04.920

One kind of fun thing with Credo is I can take this word, and I could make a mind map.

108

00:20:09.480 --> 00:20:24.870

And a mind map helps you understand where driverless cars fit in the scheme of things. It gives you some related terms like this "intelligent transportation system." I read that in one of those other articles.

109

00:20:25.500 --> 00:20:37.980

What is that? It might be something you want to explain to your audience. So, so this is kind of a fun thing. It gives you kind of a unique perspective on your topic.

110

00:20:45.390 --> 00:20:53.340

Preeti, do we have any questions that I could answer? Okay, that sounds great.

111

00:20:54.420 --> 00:21:05.100

At this point, I have a pretty good rough draft for my thesis statement—that's my affirmative statement of my position on driverless vehicles.

112

00:21:05.940 --> 00:21:16.560

I'm going to start off with driverless cars will result in improved commuting, changed lives for the disabled and elderly,

113

00:21:16.980 --> 00:21:26.400

And reduced air pollution. That's just my draft. Now I've got to go out and I've got to look for peer-reviewed articles on this topic.

114

00:21:27.240 --> 00:21:33.210

On these three things, I want to find articles that are going to back up my arguments.

115

00:21:34.080 --> 00:21:48.180

And peer-reviewed articles are those articles that are written by experts in a particular field. And then they were reviewed by other experts to make sure that the writers have used good research methods.

116

00:21:49.950 --> 00:21:52.950

So I'm going to go to find journal articles here.

117

00:21:55.020 --> 00:22:00.780

And I have set up some search boxes for some general databases.

118

00:22:03.150 --> 00:22:23.640

The EBSCO databases. And as you can see, it knows me, so I'm going to use the first search here: "driverless cars." Now, let's see. I'm going to search the EBSCO databases for peer-reviewed articles. We've already got it limited here: full text and peer reviewed.

119

00:22:24.930 --> 00:22:26.250

So they can just click that.

120

00:22:27.450 --> 00:22:28.980

And we're going to search

121

00:22:30.870 --> 00:22:31.920

See what they come up with

122

00:22:34.680 --> 00:22:47.160

Okay, pretty good search results. I want to make sure that I have the most recent articles. You can see the full text is checked and scholarly peer-reviewed is checked.

123

00:22:47.760 --> 00:22:56.550

I want to limit my results to more recent articles. Let's go five years. So I want to limit it, I'm going to move the slider to 2013.

124

00:23:00.180 --> 00:23:01.830

And it's updating for me.

125

00:23:04.650 --> 00:23:13.500

And this is great. I have 27 articles, but you know what? I want to focus on, to start with, to start with the benefits

126

00:23:14.760 --> 00:23:16.800

or the advantages

127

00:23:17.970 --> 00:23:29.190

of using these kind of cars. What this is going to do for me when I do this search, it is going to come up with articles that talk about driverless cars.

128

00:23:29.730 --> 00:23:48.120

The word benefits or the word advantages is going to show up in that same article. I'm given a couple choices here, but the word and means the article has to have both driverless cars AND all those other words. So I'm going to do my search again.

129

00:23:51.000 --> 00:24:04.110

And that limits quite a bit. But now I can be more focused in my research and what I'm going to do is I'm going to read through the titles and the subjects here.

130

00:24:05.130 --> 00:24:15.840

Oh gos,h driverless okay. Autonomous vehicles. There we go, that looks good - intelligent transportation systems. These are the subjects that the

131

00:24:15.930 --> 00:24:19.170

people that have put databases together have given

132

00:24:20.850 --> 00:24:31.800

to these articles. They go through and they give them subjects. Automated privacy challenges - kind of a legal topic. Well, I might come back to that.

133

00:24:33.240 --> 00:24:37.470

Autonomous drones. No, I don't think so. I don't think we're talking about that today.

134

00:24:38.520 --> 00:24:54.510

Impacts of autonomous vehicles on consumer time-use patterns. That talks about commuting - commuters. That might be interesting. I might come back. I'm going to go through my articles and look at those things. Go back to the ones that are of interest to me.

135

00:24:56.430 --> 00:24:57.060

Sample

136

00:24:57.690 --> 00:24:59.460

The Driverless City. Let's click on the

137

00:24:59.490 --> 00:25:01.050

PDF full text.

138

00:25:10.950 --> 00:25:11.670

And

139

00:25:13.320 --> 00:25:18.300

This looks interesting. And I'm going to read, usually there's like a little -

140

00:25:19.560 --> 00:25:27.930

there might be a larger abstract. This one's pretty short but I always read kind of the summary or abstract that's at the beginning of the article.

141

00:25:28.440 --> 00:25:36.540

"Using a systematic approach today's engineers could create more environmentally responsible ... That's one of my interests.

142

00:25:37.050 --> 00:25:50.970

Safe - again another interest and sustainable transportation systems for the cities of the future. Okay, this one looks like I should read it. So I'm going to read through the introduction. Ah.

143

00:25:51.900 --> 00:25:58.710

An increasingly important question is the need to provide better access to transportation for the elderly and disabled.

144

00:25:59.490 --> 00:26:09.030

I'm going to continue reading this because it looks like it has some information that I could use to support my arguments. Sure enough, they list the benefits

145

00:26:09.990 --> 00:26:21.810

of those of autonomous vehicles: fewer accidents, better gas mileage. And my job is going to be to summarize and synthesize this information,

146

00:26:23.040 --> 00:26:26.460

and prove my argument to my audience.

147

00:26:28.890 --> 00:26:34.290

So what I want to do is - I probably want to keep this article so I can download it.

148

00:26:35.790 --> 00:26:44.910

as a PDF. I can also email it to myself. And the advantage of that is that I can ask it to give me

149

00:26:46.110 --> 00:27:04.980

the APA citation to go with this article, but you should always check the citation before you actually use it in your paper. You have to, and that reminds me. I want to remind you that we will have an APA webinar in early January.

150

00:27:06.060 --> 00:27:12.660

So, and we'll help you figure out how to correct these citations if they're not

151

00:27:13.950 --> 00:27:19.860

exactly the way they're supposed to be. Sometimes they're very good, the databases, but they don't always get

152

00:27:21.180 --> 00:27:24.000

perfect citations. You have to check them.

153

00:27:26.910 --> 00:27:41.130

Okay. Um, I'm going to continue through my list of articles and look for both arguments for driverless vehicles and maybe I might want to change the search and look for disadvantages to

154

00:27:42.810 --> 00:27:47.610

So, before we go on, does anybody have any questions about EBSCO?

155

00:27:48.750 --> 00:27:49.290

156

00:27:49.380 --> 00:27:51.120

We do have a question.

157

00:27:51.390 --> 00:27:56.310

about: Is there a way to the references that the article used?

158

00:27:56.760 --> 00:28:06.600

Oh, of course. Let's click on this PDF. That's an excellent idea that they will come through in the full text. Let's see if this one's a good one. Let's go back to it.

159

00:28:08.280 --> 00:28:21.810

Let's see. This one may not have them, although we do have the writer in his information. Let's look at another one that's, uh, let's look at another one in our list here.

160

00:28:23.880 --> 00:28:31.950

Okay, let's go to this one, this one might have what we call. Let's see what this PDF

161

00:28:35.850 --> 00:28:37.890

Let's see. Okay.

162

00:28:39.360 --> 00:28:41.580

Some might have footnotes

163

00:28:42.780 --> 00:28:52.830

or they could have the references at the end. It depends on the type of article. This happens to be a law review article so they have footnotes.

164

00:28:55.020 --> 00:28:59.280

Can take a look at those or, let's see. Let's find one with ...

165

00:29:02.460 --> 00:29:05.490

Ah, this one might help us out. Let's see.

166

00:29:12.030 --> 00:29:24.330

It should have them at the end. Yes, this does have all of the references at the end. So look for footnotes or look for references at the end.

Okay.

167

00:29:24.810 --> 00:29:25.380

Marsha

168

00:29:25.470 --> 00:29:26.010

I think

169

00:29:26.040 --> 00:29:35.580

the student was actually wondering how to reference the article itself.
Is there a tool that creates a Reference for you?

170

00:29:35.910 --> 00:29:51.180

Oh yes, the email. Let's look at the that's ain APA, you can have it sent
to you, so it will give you a reference citation and you can find a
citation right down here. Okay.

171

00:29:52.530 --> 00:30:09.060

In the citation format, here's your APA one that the database gives you.
And like I said earlier, make sure you want to check that against our APA
resources to make sure that is correct.

172

00:30:12.930 --> 00:30:16.020

You did answer the question for the student.

173

00:30:18.090 --> 00:30:18.480

Okay.

174

00:30:20.400 --> 00:30:23.550

And I'll show you how to do that. And the next set of databases to

175

00:30:24.090 --> 00:30:25.260

Oh, also really quick.

176

00:30:25.650 --> 00:30:26.250

177

00:30:26.400 --> 00:30:30.750

If you can show how to show students how to find the permalink.

178

00:30:31.800 --> 00:30:40.500

Ah, yes. That's a good idea. I should have stayed in there. Let's see. We'll try this one. If you go to the right hand side, there's a little link here.

179

00:30:41.700 --> 00:31:00.240

And if you click on that link, you will be given a permalink up at the top of the page - right there. So you have printed. You can also download it. You could email it to yourself, put it into a folder, you'd have to create your own folder in in

180

00:31:01.410 --> 00:31:02.100

EBSCO

181

00:31:03.180 --> 00:31:07.320

And the citation and you have a permalink right there.

182

00:31:09.120 --> 00:31:11.880

Okay, great. Good questions. Excellent.

183

00:31:13.440 --> 00:31:15.960

Okay, let's go back to

184

00:31:18.000 --> 00:31:21.480

the results list and find my

185

00:31:24.120 --> 00:31:25.380

There we go. Okay.

186

00:31:29.070 --> 00:31:31.830

Let's go to the ProQuest databases. They are ...

187

00:31:33.030 --> 00:31:45.810

They work the same. They look a little different. I'm going to try some synonyms here. Let's give the database a little harder job. And I'm going to use some parentheses

188

00:31:46.890 --> 00:31:53.130

like I did. Driverless or that word autonomous and I hope I can spell it.

189

00:31:56.100 --> 00:31:59.160

I wanted to pull up either driverless or autonomous

190

00:32:00.420 --> 00:32:05.820

And I want to know about the benefits or advantages.

191

00:32:08.580 --> 00:32:12.750

So let's see what comes up. We'll show you what that search looks like.

192

00:32:14.520 --> 00:32:25.710

Here I put the words in parentheses because I want it to look for driverless. The database. Look for driverless or autonomous

193

00:32:26.850 --> 00:32:41.910

And I also want to find in the same articles, the words benefits or advantages. But I'm keeping these together in parentheses, so it knows either this one or this word. This word or this word.

194

00:32:44.760 --> 00:32:59.370

And this - we've set the ProQuest search box to search for full text or peer reviewed. Also, the check marks don't show up. But we have set it up so that when you use that search box

195

00:32:59.820 --> 00:33:09.990

you will get peer reviewed and full text articles. I do have to - I want to limit it again to the last five years, because I want more recent articles.

196

00:33:16.590 --> 00:33:20.070

And I look at the titles. Again, this looks very

197

00:33:22.110 --> 00:33:23.160

198

00:33:24.360 --> 00:33:33.420

Here's a possible article to read: The autonomous car - a blessing or a curse for the future of carbon, of low carbon mobility.

199

00:33:35.640 --> 00:33:39.630

Implications of autonomous vehicles for planners perspective.

200

00:33:41.190 --> 00:33:53.610

Driverless vehicles: opportunity for further greenhouse gas emission reductions. Very good. This is another one of my topics. I'll probably really want to take a close look at this one.

201

00:33:54.870 --> 00:33:57.810
So I'm going to click full text PDF

202

00:33:59.310 --> 00:34:00.810
So I want to read it right now.

203

00:34:04.260 --> 00:34:05.850
And it has a longer

204

00:34:06.900 --> 00:34:13.350
abstract, but this is a really good thing to take a look at first. You want to kind of weed out those articles you don't really want to

205

00:34:15.180 --> 00:34:25.800
read. Fully automated driverless vehicles will likely drastically change the way people and goods are transported, implicating land use and transportation.

206

00:34:26.340 --> 00:34:33.810
They would not only provide a convenient means of transportation to many, but also become an effective tool

207

00:34:34.620 --> 00:34:41.310
To reduce transportation related greenhouse gas emissions. Yes, that's definitely one of the arguments I want to make.

208

00:34:41.910 --> 00:34:49.710
So I'm going to be reading this article, and I go through the whole thing. I'm going to read the introduction. Now, some people say, well,

209

00:34:50.280 --> 00:35:05.520
I don't want to read all the scientific data from how they created this. If you've got a very scientifically-based article, try to read the abstract, the introduction, go to the conclusions

210

00:35:06.810 --> 00:35:23.370
if they have some. Look at the end and then see what their conclusions are. Then go back and work your way through the scientific information. What's important is you understand what the results of their tests were.

211

00:35:24.420 --> 00:35:41.190
That's what's the important part of it. And how they conducted their tests and some of the details. Maybe you're not a big statistician or

whatever, but you will understand, you need to read these articles three, maybe more times, to truly get the information out of them.

212

00:35:42.330 --> 00:35:49.320

And again, I'm going to synthesize and I'm going to summarize this information for my audience.

213

00:35:51.000 --> 00:35:56.190

And again, you can download the PDF. You can email it to yourself.

214

00:35:57.270 --> 00:35:58.770

With the citation.

215

00:36:00.240 --> 00:36:18.210

And you can check the citation here. So I'll open that up so you can see. Here's their citation. Again, make sure you check it against our APA resources. Come to our APA webinar. Learn all about it, but check the citation to make sure it's correct.

216

00:36:21.300 --> 00:36:31.350

Um, if you would like the permalink to this article, click on abstract details, scroll down,

217

00:36:34.920 --> 00:36:36.450

and you will find the document.

218

00:36:37.890 --> 00:36:38.580

Right here.

219

00:36:41.010 --> 00:36:41.550

Right there.

220

00:36:46.980 --> 00:36:50.640

Any questions about this database. We doing pretty good.

221

00:36:54.540 --> 00:36:55.200

Okay.

222

00:36:57.090 --> 00:36:59.340

Somebody gave me the thumbs up. That's kind of nice.

223

00:37:00.720 --> 00:37:06.330

One more place you can find things. I know we're getting cut kind of long here, but there's a lot of information to cover.

224

00:37:07.710 --> 00:37:17.220

Um, let's go to ebooks. Somebody says, I don't want to read a whole book. Well, you don't really have to read a whole book.

225

00:37:18.480 --> 00:37:21.150

I'm going to show you how. Let's go to E-books Central.

226

00:37:22.470 --> 00:37:27.810

And this is the largest provider of eBooks that we have. Click on E-books Central.

227

00:37:29.610 --> 00:37:32.940

Timed out. Well, I need to refresh that page. Good.

228

00:37:33.990 --> 00:37:37.200

Not quite sure how that happened. There we go. Okay.

229

00:37:38.550 --> 00:37:56.910

And I got a search box here. And again, it knows me it'll save my searches. So I'm going to use that same search that I used in the ProQuest databases. I really like it - it has synonyms in there to look for. I'm going to search.

230

00:37:58.890 --> 00:38:01.500

And I can limit over here to the left.

231

00:38:05.460 --> 00:38:07.740

2013.

232

00:38:12.450 --> 00:38:31.740

Limit to the last five years here. So it doesn't have any to 2018 books. Autonomous vehicle technology guide for policymakers. I'd like to see what they have to say here. I can read this article, this book, online. So I click read online.

233

00:38:35.310 --> 00:38:42.300

Folks are playing - looks like that family's playing Scrabble in the car as they drive down the street.

234

00:38:43.320 --> 00:39:02.100

Okay, and I can scroll through the book and I also can go look at the information on the side. And these little bars will tell you how many hits I'd had on my particular search terms. So I look at the summary first.

235

00:39:03.570 --> 00:39:14.280

And it'll actually pop-up over on the right hand side. The first line tells me autonomous vehicle technology offers a possibility of fundamentally changing transportation.

236

00:39:14.850 --> 00:39:29.730

Equipping cars and light vehicles with this technology will likely reduce crashes, energy consumption and pollution, and reduce the cost of congestion. Right on target with my topic.

237

00:39:31.410 --> 00:39:38.310

So this looks interesting. I can scroll up also to the table of contents.

238

00:39:39.690 --> 00:39:40.680

Always useful.

239

00:39:42.000 --> 00:39:44.610

And see what the chapters actually talk about.

240

00:39:47.250 --> 00:39:56.040

Kind of a preview. Ah, what are autonomous and automated vehicles? Good place for definitions.

241

00:39:57.780 --> 00:40:05.670

The promise and perils of autonomous vehicle technology. "Promise" would be advantages and "perils" will be disadvantages. OK.

242

00:40:06.810 --> 00:40:12.960

And I'm going to scroll down the left hand column, and I'll probably open up Chapter One and take a look at that.

243

00:40:14.160 --> 00:40:14.490

Okay.

244

00:40:15.810 --> 00:40:22.500

Probably this looks like it'd be a great chapter, kind of as an introduction. Gives me some information. Chapter Two.

245

00:40:23.580 --> 00:40:31.740

Here's a lot more hits. The promise and perils. So Chapters One and Two look like what I really need to read in this book.

246

00:40:34.350 --> 00:40:34.890

See

247

00:40:36.960 --> 00:40:44.010

Okay, again, I'm going to summarize this information and use it to prove my arguments in my paper.

248

00:40:47.070 --> 00:40:47.790

Okay

249

00:40:51.570 --> 00:40:58.710

What else do you, any other, any questions that anybody would have about eBooks, or any of the databases or go on.

250

00:41:00.180 --> 00:41:01.470

Okay, great.

251

00:41:02.790 --> 00:41:03.300

That's good.

252

00:41:04.320 --> 00:41:09.150

I am going to go back to the online library. Let's see.

253

00:41:13.530 --> 00:41:15.630

I'm hoping we could find this up here.

254

00:41:16.830 --> 00:41:20.910

I kind of got lost in the library. Kind of got lost a little bit here.

255

00:41:22.860 --> 00:41:26.520

Okay, find your library. There we go. Homepage of the library.

256

00:41:32.040 --> 00:41:43.110

On the homepage. You might have problems - you're going along, you're using the library - you've got a question. I showed you how to find the LibAnswers. You could also go to our tutorials. This is in the orange tab.

257

00:41:44.010 --> 00:42:02.550

And we've made quite a few little short tutorials that will help you use the library. Find peer-reviewed articles, use keywords and subject terms. Also how to use those Boolean operators. That's what AND and OR are called and also use the one NOT.

258

00:42:04.740 --> 00:42:18.810

Choosing a topic. This is like a three-minute video that's excellent. And also finding credible websites. If you're, if you can use, go out and use websites. This is a good one to watch - this little tutorial.

259

00:42:20.730 --> 00:42:24.570

We have some specific database tutorials for you.

260

00:42:27.150 --> 00:42:47.220

And also to help use the library, we have recorded webinars. This one's being recorded, and we have some other ones that we've recorded in the past. And we've made a library guide on that. And if you click on the box, you will be taken to

261

00:42:48.240 --> 00:42:50.370

the webinar and you can listen to that.

262

00:42:53.460 --> 00:42:57.210

And we will have transcripts coming later.

263

00:42:58.410 --> 00:43:06.930

And there will be quizzes coming later. But we've got these ones that we've done in the past. So you might want to scroll through.

264

00:43:07.740 --> 00:43:21.600

If you use the Nexis Uni database, this is another recorded webinar. We have a Smart Thinking one and we will be replacing these and adding those transcripts and quizzes later.

265

00:43:26.820 --> 00:43:29.910

Okay, I'll go back to the homepage of the library.

266

00:43:31.110 --> 00:43:36.600

The green tab here is AskaLibrarian. It's a form you could fill out.

267

00:43:39.270 --> 00:43:57.450

And you can email it in to us. It will go in and we will answer it. Again, we monitor AskaLibrarian seven days a week and questions are

answered within 24 hours, typically faster. And so, submit your question and we'll get back to you.

268

00:44:00.510 --> 00:44:07.320

Also, if you want to look for your subject librarian. We have a link here again to that page. Find Your Subject Librarian.

269

00:44:10.020 --> 00:44:16.800

Under APA style, we have a tab on that. Everybody's always interested in that APA formatting and style.

270

00:44:18.660 --> 00:44:28.080

If you've used other people's ideas, like I'm going to use ideas from those articles in my paper, I have to cite to them.

271

00:44:29.760 --> 00:44:41.100

If you haven't ever used APA before, here's the APA basics tutorial. It's five minutes. It's worth your time to go through there and get an introduction to APA style.

272

00:44:41.760 --> 00:44:52.560

Both formatting and how to do a Reference page. We have in-text citation examples, reference page examples. And here's

273

00:44:53.460 --> 00:45:13.860

What you want to call our secret weapon. This is the APA paper fillable template. So if you have to write an APA formatted paper, you can click on this link, download the document, and follow instructions to fill out the title page and start writing your paper.

274

00:45:16.140 --> 00:45:27.000

We have a new addition - APA in a minute tutorial series, that we're working on. These are short, quick video tutorials on specific APA questions you might have.

275

00:45:28.110 --> 00:45:44.070

And don't forget that APA webinar. Again, I believe it's January 7th and we'll be sending out information on how to register for that one. And Preeti will be doing that one. So please join us on January 7th.

276

00:45:46.590 --> 00:45:51.210

The other link under the APA style tab is to the Writing Center.

277

00:45:54.750 --> 00:46:06.930

And I'm just going to quickly go through this. It's getting kind of late, but the research tab goes over a lot of those things that you probably, if you're writing a paper, you really

278

00:46:08.070 --> 00:46:20.700

Need some help with. This has some great short videos. All of these tabs - these different topics -how to choose a good topic and also links to our databases.

279

00:46:23.700 --> 00:46:25.170

Researching a topic.

280

00:46:27.930 --> 00:46:29.280

Didn't want to work for me today.

281

00:46:32.460 --> 00:46:33.750

There we go. Okay.

282

00:46:34.950 --> 00:46:48.330

What are peer-reviewed articles, a handout on what are peer-reviewed articles. What are credible sources of information. How to find information. Again, short videos, it's worth your while to spend the time on them.

283

00:46:53.220 --> 00:46:57.300

And some more information that we've put in here from the library itself.

284

00:46:59.700 --> 00:47:04.110

Organizing the information. You need an outline to hand in

285

00:47:05.160 --> 00:47:15.360

We've got that. We have outline examples, blank templates. If you have to do an annotated bibliography, we have an example of one of those.

286

00:47:20.880 --> 00:47:22.230

In the writing tab.

287

00:47:24.270 --> 00:47:27.600

What I used, I used under drafting

288

00:47:29.520 --> 00:47:41.070

I listened to some of these videos on how to write a thesis statement. That's kind of how I got my idea for a thesis statement. We also have some handouts that will help you develop your thesis statement.

289

00:47:42.660 --> 00:47:45.120

On the revising and editing page.

290

00:47:47.880 --> 00:47:55.170

There's a checklist of tips. I kind of like this one down here called 12 common errors, an editing checklist.

291

00:47:57.870 --> 00:48:03.180

And there's an APA tab here in the Writing Center, very similar to the one we have in the library.

292

00:48:05.130 --> 00:48:07.470

And if you go to the home of the Writing Center.

293

00:48:09.810 --> 00:48:14.610

You will see a link to the Academic Integrity Policy.

294

00:48:16.140 --> 00:48:29.220

And AskaLibrarian. This is the form that you fill out for the questions. And you also have a link here to a page that explains more about Smart Thinking. It'll take you to the link in D2L.

295

00:48:29.730 --> 00:48:37.800

Take you to D2L to get to Smart Thinking and also that link in the NAU student portal to Smart Thinking.

296

00:48:41.190 --> 00:48:49.950

So let's go back to the homepage of the library. Again, if I can find it. It kind of disappears here some days.

297

00:48:51.090 --> 00:48:52.530

Okay.

298

00:48:54.780 --> 00:48:57.930

Let me go back here and then we'll click on the online library.

299

00:49:00.570 --> 00:49:05.220

Everybody, that is what we have today. If you're new to the library. I hope that

300

00:49:06.390 --> 00:49:12.600

this has helped you get started on your research. And if you've used the library in the past, I hope that

301

00:49:13.650 --> 00:49:22.950

you've learned a little something new. And remember the homepage here might look a little different, but we're going to have drop-down menus at the top.

302

00:49:23.430 --> 00:49:34.530

And the same resources that you could find in the library. So as a reminder, you will receive a link to an email with the link to the quiz

303

00:49:35.010 --> 00:49:48.270

about an hour from now, maybe a little sooner. Who knows - we're not sure quite yet. Check your spam folder. You never know. It might get tossed into spam. Take the quiz and you'll receive an email from

304

00:49:49.320 --> 00:49:54.030

them that you can forward on with your results to your instructor

305

00:49:55.830 --> 00:50:01.920

And if anybody has any questions, we'll open it up to questions right now.

306

00:50:03.240 --> 00:50:04.950

I'll kind of just stay here.

307

00:50:06.420 --> 00:50:08.250

And I'm going to stop recording now.

308

00:50:08.280 --> 00:50:10.020

So, okay.
