Database Best Bets

CINAHL (Ebsco)
Comprehensive nursing & allied health research database, providing full text

Using CINAHL

The screenshot shows the 'Nursing Subject Guide' page. On the left sidebar, there are categories: 'Articles', 'Books', 'Evidence Based Practice' (highlighted with a dark blue bar), and 'Skills'. Below 'Skills' is a box with the text 'Select CINAHL from the list.' and a 'Contact your Librarians' link. The main content area is titled 'Evidence Based Practice' and contains a paragraph: 'The following databases can be used to locate evidence-based practice nursing articles. This handout provides a visual of how you can narrow your search down to evidence-based articles.' Below this, 'CINAHL' is circled in red. The text for CINAHL reads: 'Comprehensive nursing & allied health research database, providing full text for more than 770 journals. Offers access to health care books, nursing dissertations, selected conference proceedings, standards of practice, educational software, audiovisuals and book chapters.' Below are links for 'Nursing and Allied Health Source' and 'ClinicalKey (Formerly Mosby's Consult)' with their respective descriptions.

The screenshot shows the EBSCOhost search interface. At the top, a navigation bar includes 'New Search', 'Publications', 'CINAHL Heading', 'Evidence-Based Care Sheets' (circled in red), and 'More'. Below this is the search area with 'Searching: CINAHL Plus with Full Text' and a 'Choose Databases' dropdown. A red arrow points from the 'Evidence-Based Care Sheets' link to a box that says 'You can narrow you search down to evidence-based practice medicine here.' Another red arrow points from the 'Evidence-Based Care Sheets' link to a box that says 'Or find Evidence-Based Care Sheets by clicking here.' On the right side, there are filter options: 'Apply equivalent subject terms', 'Apply related words', 'Also search within the text of the articles', 'References Available', 'Published Date' (with month and year dropdowns), 'Publication', 'Peer Reviewed', 'Exclude Pre-Clinical', 'Exclude MEDLINE records', 'Evidence-Based Practice' (circled in red), and 'Human'.

Using ClinicalKey:

From the Library's healthcare subject page (where you selected CINAHL) scroll down and choose "ClinicalKey (Formerly Mosby's Consult)."
