### How raising interest rates can cause inflation and currency depreciation.

In this paper we derive a new model on exchange rate response to a lasting higher interest rate level. models do not provide a convincing explanation for this relationship, but recent research suggests the

### A Note on the Competing Causes of High Inflation in Bulgaria during the 1990s: Money Supply or Exchange Rate?

This note aims at analyzing Bulgaria's high inflation regime during the 1990s. Two competing causes of high inflation are explored: changes in the rate of growth of the money supply in the economy and changes in the foreign ...
